

JETDRUM K8 & K12

Drum rack for fiber cable drums. Easy assembly and disassembly, few parts. The drum rolls very easily on the drum rack. Improves ergonomics by allowing the drum rack to be turned 180°; this way, you can pull or push the drum in front of you. Available in two different sizes.

JETDRUM FOR FIBER CABLE DRUMS

K8 fits drums with a maximum diameter of 800 mm / 100 kg.
Adapter for Ø80-60-40 mm.

K12 fits drums with a maximum diameter of 1200 mm / 150 kg.
Adapter for Ø80-60-40 mm.

- Easy to assemble
- Easy to transport
- Easy to disassemble
- Low friction between drum rack and drum
- Creates good ergonomics
- No small parts
